PROFILE

The Yellow Studio is a Design consulting subsidiary of THE YELLOW INTERIOR DESIGN COMPANY LTD, a Nigerian lifestyle brand bringing creatively bright ideas to the Design market.

Our STUDIO is birth from the combined synergy of creative design.

Bukola, is the lead Interior Designer and founder of The Yellow Interior Design Company, she has developed a unique perspective on conceptual and visual design for retail, editorial and property markets.

You cannot emerge untouched from a meeting with Olubukola Adeyemi. A constant in the very closed circle of creative Designers based in Lagos, She as well-known as they are discrete. Her creative energy is built upon her love and passion for good Design.

Through the years, our team have found their unique style individually, and in their divine duality a signature was born to evoke emotions and create visual and cultural narratives.

The subtle balance that we have found between the private and the professional allows us to communicate profound results.

## THE VALUE OF OUR STUDIO

### CONCEPT

*This stage involves the creative and visual thought process—from reflecting on ideologies and exploring principles, collating inspirations, to creating collages of proposed moods and emotions that set the pace for the design.*

### DESIGN

*This stage involves planning and creating or breaking the boundaries, relating volumes and scales with the layout and flow of the spaces. Thereafter, floor plans, elevations and materials are selected for 3d visualisations, presentation and realisation.*

### IMPLEMENT

*This stage involves selecting contractors, procurement from vendors, project managers and 3rd parties that will work with the design team to implement the designs and ensure they are realised according to the Design vision.*

The initial spark, the first intuition, comes from the concept, we think of the spaces, designs the volumes, imagine their functions.

We then build on the mood boards, which bringing colour to the sketches, gives life to pencil strokes by selecting the right tones, the perfect shapes, the best materials in order to completely fulfil the desires of our clients.

With mutual trust and originality as a common thread, and simplicity as the brand image, we constantly overturn the paradigms of design and embody a happy alliance between creativity and aesthetic.

As a team, our differences is the strength behind our complementarity and creativity, the work of one feeding that of the other.

Across each of our projects, we are writing a new story, and together creating a new design narrative in Africa.

WORK

STORE

REFLECT

BOND

The concept of this home office design is to create a minimal work space with clever storage complemented by iconic design objects and reflective African pieces. There is a subtle introduction of accent colours which serves as a distinction between the productive zone - a functional space to spark new ideas and get work done, and the creative zone - a casual space to reflect and read or learn and bond with a curious child.

INSPIRATION

THE LABOUR OF OUR HEROES PAST

The Memory of Place

While reciting our national anthem we chorus: " The labour of our heroes past shall never be in vain".  
Have you ever wondered where this past took place? In which building did Nnamdi Azikwe , or Muritala Mohammed live while they were labouring for the better good of Nigeria ? They are either gone or forgotten, without any trace or account of the precious memories they once held.

DECORATIVE INFLUENCES

02

COLOUR- The colour scheme will play a huge roll in preserving and portraying the original character and atmosphere of the historic building.

03

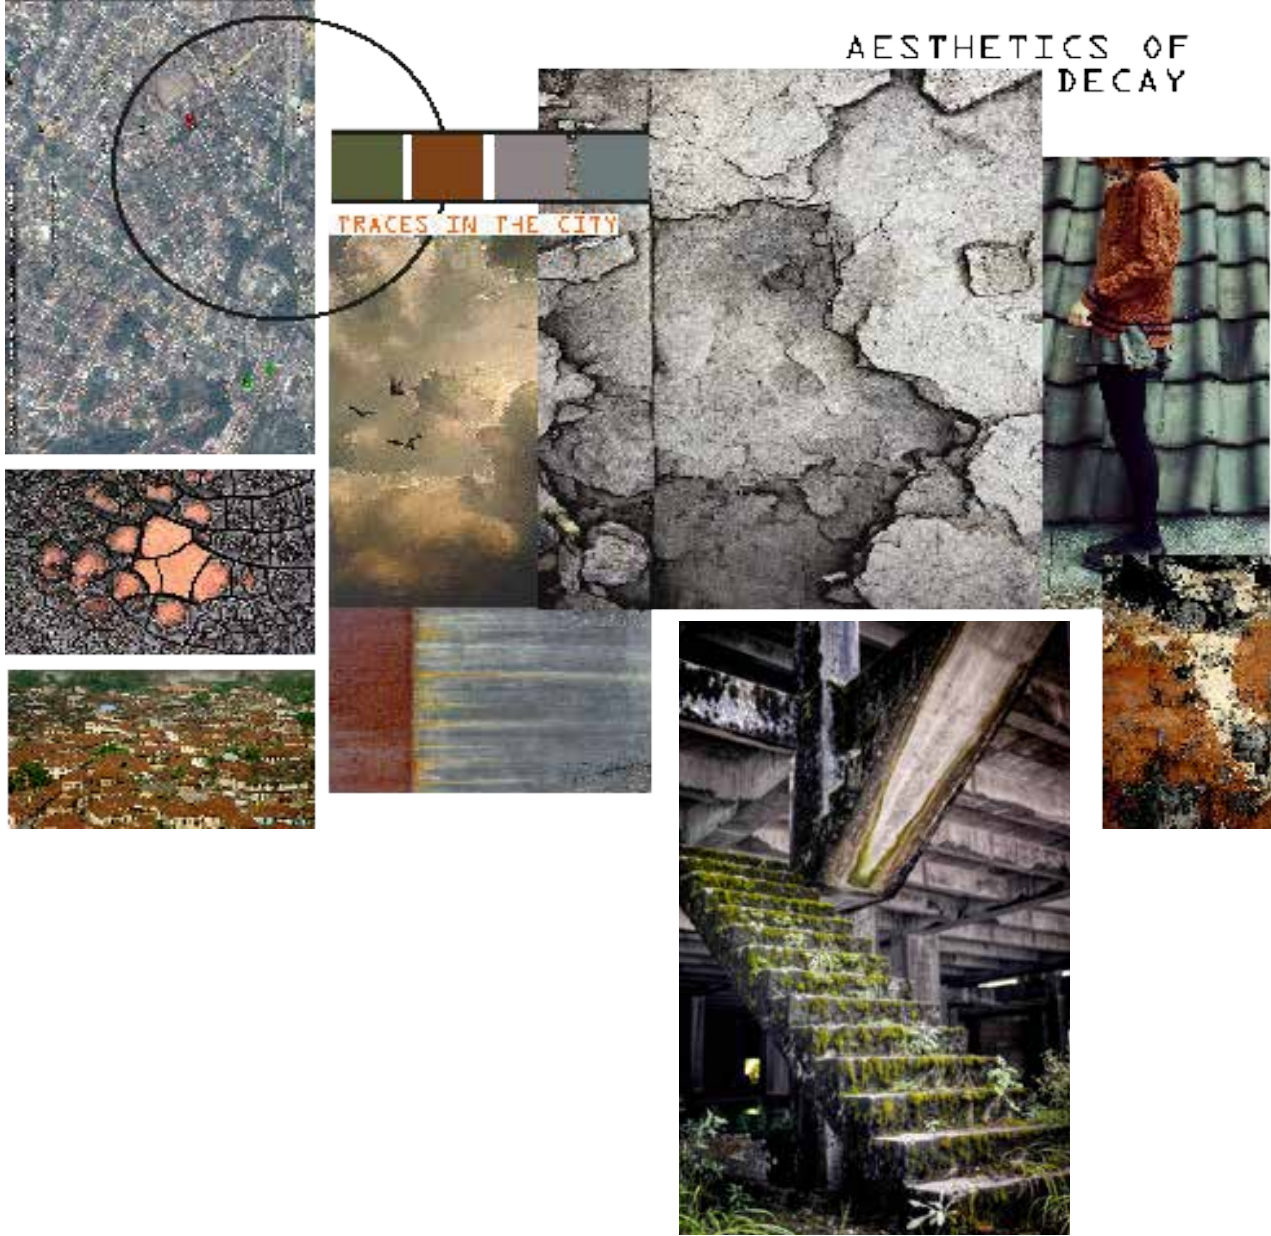

ADAPTIVE REUSE- It is important to explore historical narratives , update and bring the décor up to contemporary standards to suit the proposed purpose or use.

01

HISTORY - The main source of Decorative inspiration will pay homage to 19<sup>th</sup> century colonial architecture, cultural influences and historical decorative features of the building.
